

Sailcloth Baffles

Sailcloth baffles are the perfect economical solution to reverberation issues. Sailcloth baffles are 1 ½" thick. Standard size is 2' x 4' but they can be custom made to a maximum size of 4' x 8'.

Applications:

- Music rooms
- Theaters
- gymnasiums
- wineries
- swimming pools

Installation:

Option 1:

Install a cable, securing ends of cable into the walls. Tighten cables to avoid a sag in the cable. Suspend Baffles from cable using plastic tie wraps, metal hoops or equivalent. Vertical cable support may be required on long runs of cable.

Option 2:

Attach angle clips directly to ceiling using tech screws or self-tapping screws. Attach baffles to clip using plastic tie wraps, or polymer line such as fishing line.

Option 3:

Attach snap display hooks to ceiling grid system. Attach sanitary baffles to snap display clips using plastic tie wraps, or metal hoops.

Physical Properties:

- All components have a Class A fire rating per ASTM E-84
- Temp range: -40° F to 200°F
- Dimensionally stable
